PROFESSIONAL SUMMARY

Data Analyst with 3+ years of experience developing Python and SQL data pipelines and delivering data-driven insights to technical and non-technical stakeholders in a financial services environment. Skilled in full-cycle data analysis, from data extraction and governance-compliant curation to stakeholder-facing reporting, documentation, and training. Proven ability to bridge technical delivery with business priorities, partner cross-functionally in agile environments, and drive process improvement and change management. Currently completing a Master of Management Analytics at Smith School of Business, Queen's University, with a focus on Data Management and Data Analysis.

TECHNICAL SKILLS

Programming Languages: Python, SQL (Joins, CTEs, Query Optimization)

BI & Analytics Tools: Tableau, Power BI, Power Query, Matplotlib

Databases & Data Platforms: PostgreSQL, SQL Server, Azure Databricks, Azure Data Factory (ADF)

Business Analysis & Delivery: Requirements Gathering, Process Mapping, Change Management & Training, Agile Methodology, Scrum Principles

Productivity & Version Control: Jira, Confluence, SharePoint, Microsoft Office Suite, Git, Bitbucket

Babcock University

WORK EXPERIENCE

Data Designer

Sept 2024 – Current

TD Bank Group

- Develop and maintain Python and SQL data pipelines in Azure Databricks and Azure Data Factory, transforming raw data from prep layers into curated, analytics-ready datasets.
- Perform QA and data validation against business requirements and coding standards, ensuring curated datasets meet accuracy, compliance, and governance criteria prior to deployment.
- Partner with technology and business stakeholders to translate requirements into technical delivery, supporting successful rollout of data-driven solutions.
- Apply enterprise data governance and stewardship standards throughout pipeline curation, ensuring end-to-end ingestion and curation workflows align business requirements with governance and privacy policy.
- Create and maintain process documentation and training materials, contributing to knowledge sharing and onboarding within the data team.

HR Specialist

Jun 2023 – Aug 2024

StoreForce Solutions

- Partnered with hiring managers and cross-functional stakeholders to gather requirements and align recruitment strategy with business and cultural priorities across roles including UX Designer, Software Developer, Support Specialist, and Marketing Manager.
- Analyzed HR data and produced regular executive-level reports on recruitment, employee engagement, and payroll metrics to support data-driven decision-making.
- Owned full-cycle recruitment process, including job description development, screening, and interviewing, while developing and delivering Health & Safety and Violence & Harassment training and onboarding content to support change management and compliance.

ADDITIONAL EXPERIENCE

Compliance Officer, Government of Canada (Jan 2023 – June 2023)

Talent Acquisition Coordinator (Contract), Loblaw's Digital – Toronto, ON (April 2022 – Jan 2023)

Talent Sourcer (Contract), Altis Recruitment – Winnipeg, MB (Jan 2022 – April 2022)

Customer Service Representative, Intouch X – Winnipeg, MB (Aug 2019 – Dec 2021)
